

DBA: LEW'S LAKESHORE NURSERY

2017-18 CATALOG

THE FOUNDATION FOR GROWING EXCELLENCE

*Front cover: Truncatum Maple
Above: Paperbark Maple
All photos by John Lewis*

The Lewis Family: Crystal, Marley, Trystan and John

Greetings to all Friends,

Do you ever laugh at the words that came out of your own mouth? 18 years ago, when I was 23 and working in commercial contracting, my dad, Bill Lewis, came to me and said, "I know you aren't happy where you are, and the industry is doing pretty good. If you ever wanted to get involved, I think there's some things we could grow, that my customers are looking for." Growing up, I always defiantly said, "Getting into the nursery business would be the last thing I'd ever do." That statement became a funny story of irony in my life, and I got to be the main character. It still makes me laugh.

JLPN started as an off-shoot of Lew's Lakeshore Nursery. Lew's grew bare-root field grown seedlings for the use of grafting and budding understock. The focus of JLPN was going to be and still is container seedlings and rooted cuttings, which at the time was un-charted territory for us. Low and behold, after a few seasons, we found our focus, a customer base, and started turning out a product, of great value to our customers.

The first 3 years for JLPN were the learning grounds, funded 100% by my dad with a level of faith in me, that I'm yet to fully comprehend. We spent a lot of his money learning what wasn't going to make us money, and spent money to find out what would. At the end of the 3 years, in 2003, as promised, the financial strings were cut, and JLPN was off on its own to survive in the real world.

In early 2005, Bill decided it was a good time to retire from the industry, and sold Lew's Lakeshore to my wife and I. Shortly after the sale, in his first year of retirement, he penned a book titled, "The Perfect Time to Sell a Nursery." Clearly a joke, but nobody saw what lie ahead with the economy in 2006. Doubling up our company, and instantly plummeting into the red for the next 6 years was challenging, but the family support was there, all the way.

Here we are now, in our 18th season as JLPN, and my 18th year in the industry, the same number of years my dad worked in the nursery industry building a future for us.

As we continue to move forward and grow in the industry, the lessons and guidance taught by, and learned from my father, still hold as much relevance today, as they did 18 years ago. Regardless of how many other things have changed, creating value to your customer through quality, consistency, and reliability year after year is still paramount. We've built a lasting reputation by repeating those steps for 5 decades and 3 generations. The lessons learned from my father, became the fabric, that got us through some big challenges.

I'd like to say to my customers, have a happy and healthy year. Bless the mothers, fathers, wives and kids of nursery owners, for the sacrifice they make to help and support the success of our family industry. The foundation, success and the roots of JLPN, come from elements taught to me, by my father and the support of my mother, wife and kids, I couldn't have done it without you.

Thank you,

John L. Lewis

Green Japanese Maple

Acer buergerianum

Trident Maple zone 5

Native to Japan, Trident Maple is widely known for its use in bonsai due to the leaves keeping good reductive form. Mature specimens add very attractive shape and color to landscapes with its orange tinged exfoliating scaled bark and vibrant yellow, orange and red fall color. Height 30-35'

Per Bundle

25

ABP

EACH	PER 500
\$1.90	\$1.74

Acer campestre

Hedge Maple zone 5

Native to Europe and commonly used to form a hedge due to its dense branching habit, though in the states it's generally used as a small landscape tree that's adaptable to high ph or acid soils with consistent gold fall color. Height 30'

50

Caliper

Caliper	EACH	PER 500

1/4"	\$1.06	\$.89

Acer griseum

Paperbark Maple zone 5-7

Paperbark maple is one of the finest of all peeling trees and makes outstanding specimens when grown in clump-form. Attractive green-gold blooms in the spring, emerald-blue summer foliage and vibrant orange-red fall color make this an attractive plant year around. Our seedlings are straight as an arrow with an unmatched root system. Height 25+ Broad Spreading

Acer palmatum

Green Japanese Maple Zone 5-8

JLPN grows palmatum and all of our container under stock to specifically cater to the grafters needs. The heavy caliper plants and large container size eliminate the need to transplant before grafting. For growers prefer a 2 year transplant understock, we also grow plug form seedlings. Height 15-25'

Betula nigra 'Clump'

Select River Birch zone 3

JLPN was the first nursery to offer pre-clumped river birch seedlings directly sewn in the container, and we have had it perfected since the beginning. 3-4 symmetrical stems 12-18" in each pot make these perfect for fall transplanting into the field or for a quick turn product in 3 or 5 gallon containers. Height 40-70' pyramidal to rounded shape

OUTSOURCE YOUR OVERHEAD

"John [Lewis] and JLPN desires to produce the highest quality seedlings and liners, and based on my visits and experiences with his plants, he succeeds at the highest level," says Dr. Michael Dirr, horticulturist, retired professor of horticulture, plant breeder and author. "I've observed beds of red maple, American beech, Nyssa, sweetgum, nuttall and swamp white oaks that were almost too uniform to be seedlings, yet they were. It's one of the neatest nurseries I have visited, and weeds were in absentia."

—Mike Dirr

JLPN only collects seed, in the case that we can't outsource it, because collecting it ourselves doesn't save us money, and creates a drain on vital resources (labor). Our money is made in our propagation, and our margin comes from the large amount of mechanical automation that we've outsourced and installed in the recent past. This is why every nursery should consider "Outsourcing Your Overhead" to JLPN.

Labor was cheap and plentiful in the past, but those days are gone. Many of our customers who used to do in-house propagation, realized that it was a misuse of vital resources (The work-crew), working in propagation to save pennies, while their field crop, which yielded dollars, lie in wait for care and maintenance. The true money making portion of the business took a back seat while resources were used to do cuttings and seedlings.

JLPN is set up to propagate and produce material efficiently, because that's where our dollars are made. By "Outsourcing Your Overhead" (Propagation) to JLPN, production can be focused on the crop that creates true revenue in your business. Call, Order, and Receive, and reduce headaches of production, eliminate wasted by-product, and ease labor constraints in one simple action. Please call me, for more information on how JLPN can implement efficiency into your program.

SALES AND CREDIT TERMS AND CONDITIONS

Downloadable applications available online at www.jlpliners.com

JLPN Inc.

Policies and Terms Control.

Applicant/Buyer acknowledges that any and all sales on and extensions of credit by JLPN Inc., are expressly conditioned upon buyers unconditional acceptance of JLPN Inc. Sales and Credit Terms and Conditions stated herein and as hereafter amended. JLPN Inc. Sales and Credit Terms and Conditions supersede any and all terms and conditions appearing on Buyer's documents, including but not limited to purchase orders regardless of the time presented.

Authorization to Obtain Information.

Applicant/Buyer grants to JLPN Inc. the continuing right to obtain credit reports involving the Applicant/Buyer or other financial and credit information and to investigate the Applicant/Buyer's financial status from time to time as JLPN Inc. may see fit. Applicant/Buyer shall sign a written authorization to obtain information in a form acceptable to JLPN Inc. on request.

Change of Ownership/Address.

Applicant/Buyer, shall promptly advise JLPN Inc. in writing of any change of ownership of or the address of Applicants/Buyer's business. All such notifications shall be made to JLPN Inc., in writing, within five (5) working days of the change.

Guarantee.

JLPN Inc. guarantees all stock for grade ordered, named variety and good condition up to delivery to the freight carrier. Condition, growth, and production after delivery to the freight carrier is the responsibility of the Buyer.

Force Majeure.

If performance is made commercially impracticable or impossible because of the occurrence of an event beyond the reasonable control of JLPN Inc., including but not limited to, weather, acts of God, war, labor disputes, etc., then JLPN Inc. shall not be responsible for its inability to fulfill any orders in whole or part.

Ordering Terms.

A Twenty-five percent (25%) deposit is required on all customer orders. Those with approved credit have thirty (30) days from the shipping date to pay the balance in full. **New customers must arrange pre-payment or COD prior to JLPN Inc. shipping the order.**

Payment.

Payments made with credit cards, please note there is a 2.75% surcharge. All balances must be paid in full within thirty (30) days of shipping date. Invoices are sent within seven (7) business days of shipping and include shipping date and shipping cost.

A late charge of 2 percent per month (24% per Annum) on the unpaid balance will be added to all accounts past due. Failure to adhere to these terms may result in a shipping hold on all unshipped orders and/or a termination or reduction in the credit JLPN Inc. will extend. All payments are to be made to:

JLPN Inc.

1118 Lancaster Drive NE #409
Salem, Oregon 97301

Cancellation.

All cancellations must be made to JLPN Inc. by the 1st of Dec. of each season. Any cancellation past that date may result in a cancellation of the balance of the Buyer's order and/or forfeiture of the Buyer's deposit. Phone will be the only acceptable method.

Packing/Shipment.

Cost of packing and shipping is in addition to the price of stock and will be added to the Buyer's balance upon shipping.

Confirmation.

All orders will be confirmed in writing by JLPN Inc. before shipping. The written confirmation shall include payment terms and estimated shipping date.

Delivery.

JLPN Inc. makes no guarantee with respect to delivery. JLPN Inc. will ship FOB JLPN Inc. loading dock via UPS unless another carrier is specified by the Buyer before confirmation. Shipping is at risk of the Buyer and JLPN Inc.'s responsibility for all stock ceases upon delivery to the carrier. If stock is damaged in transit, Buyer must make all claims to the freight carrier, not to JLPN Inc.

Claims.

All claims must be reported by Buyer to JLPN Inc. within ten (10) days of the receipt of the shipment. Adjustments, if any, will only be for claims concerning the quality of grade, named variety, or damage from JLPN Inc. harvesting. **All plants become Buyers property upon delivery to the freight carrier. All unsatisfactory stock**

must be returned to and received by JLPN Inc. within fourteen (14) days of delivery to Buyer.

Re-shipment must be authorized in writing by JLPN Inc. and plants must be returned in good condition. Freight on return of unsatisfactory stock will be paid by JLPN Inc., once approved by JLPN Inc. for return.

Attorney Fees.

In the event Buyer's account with JLPN Inc. is placed in the hands of an attorney for collection, Buyer promises and agrees to pay JLPN Inc. reasonable attorney's fees and costs, even though no arbitration, suit or action is filed thereon. Further, if any arbitration, suit, or action is filed to collect any sums allegedly due by Buyer to JLPN Inc. Buyer promises and agrees to pay JLPN Inc. reasonable attorney fees and costs as fixed by the arbitrator, Court or Courts in which the arbitration, suit or action, including any appeal therein, is tried, heard or decided.

Oregon Law.

All transactions between Buyer and JLPN Inc. shall be interpreted under the laws of the state of Oregon. Further, Buyer stipulates to jurisdiction and venue in Marion County, Oregon for any claims arising out of any transaction between Buyer and JLPN Inc.

Applicant, by submitting this application, represents and warrants to JLPN Inc. that all information contained in its credit application is true and correct and authorizes JLPN Inc. to investigate any and all references listed herein and to obtain a consumer credit report upon Applicant for use in evaluating this application.

The terms Buyer and/or Applicant mean the person/entity submitting this application.

As I always save the best for last, my reward of completing my catalog every year, is getting to do the easiest part; talking about my favorite kids. Trystan and Marley provide us with motivation every day. They constantly impress us with a fearless personality to try new challenges, even if they know they will start behind the pack. This past year has been full of experiences, some new, some old, but also a year where they got to start working on the nursery as a regular summer job. While one loves it, and the other isn't exactly thrilled, they never complain, as they know the reward for hard work. As my dad told me, "Work hard, play hard. Too much of either one, is a bad thing."

— John Lewis
