ROOTED CUTTING DESCRIPTION

JLPN sells many items by the piece, and not by size, due to the fact that the development of the root system is far more critical to a plants future growth than the height. To clarify the scale, we have provided the following pictures of 25 count, rooted cutting bundles. In all cases, JLPN delivers plants that are healthy and viable, however having two options gives the buyer a little flexibility on price, to fit their growing needs.

0" Rooted Cutting (R/C)

Not Advertised for Sale, zero's are just that, zero new growth. They are fully rooted, but only suitable for containers.

1"- 3" Rooted Cutting (R/C)

1-3" of new growth, and fully rooted. Recommended for growing in container for 1 season, or fields with solid weed control practices.

4"+ Rooted Cutting (R/C)

4"+ of new growth, and fully rooted. All R/C's are topped at a max height of 16". Roots are going to be larger, more durable, and more developed. All plants listed "R/C" are field ready, for transplanting.
