The Lewis Family: Crystal, Marley, Trystan and John

Greetings to all friends,

When we are faced with an opportunity in business, it usually comes with a certain amount of underlying risk that needs to be assessed. In many cases, we look to our mentors, our team, and our own personal experience, then try to make the best call on how to proceed: sometimes with caution; other times with blind faith.

Last year, I looked at the snowy peaks of Mt. Bachelor in Central Oregon like Clark W. Griswold looks at his house at Christmas time – envisioning the glow of 25,000 imported Italian twinkle-lights. I had the same, semi-maniacal stare, glazed-over eyes, and visions of carving through the powdery snow on skis with the entire family trailing behind, huge smiles and snot-cicles gracing their cheeks. It was going to be amazing!!! And risk? What risk? There's no risk . . .

So come opening weekend on Thanksgiving, we were geared up. And I mean we were ready to go shred that mountain! We had our skis, shiny new gear, season passes, and we were going to tear it up, Lewis-Griswold style. So after a couple bunny-hill runs, my instructor (as if I needed one) decided to take me up a little higher because, after all, I skied one afternoon in second grade and I could clearly handle more. So we filed off the lift and came to a sign, showing "Avalanche" as the name of the run. It seemed a little disconcerting, but while it looked steep, I had been skiing for almost a solid hour . . . so what was the risk?

Fast forward past the part where I utterly wipe out, splaying my gear all over the mountain like a yard sale, hearing crunching sounds in my knee like twisting chicken wings apart on a 240 pound chicken; Hit repeat and do it all once more to make sure that I really did blow-out my knee on the first wipeout; Then get to the funny part where the ski patrol carts me off the mountain on a toboggan! My wife (who didn't make it past the lodge) has a skull crushing migraine from elevation sickness, and the kids are crying because daddy didn't learn the fine-art of non-impact stopping. So much for John Lewis' visions of grandeur and letting the "risk-assessment snow-bunny" mogul right past, completely unseen.

Odds are that every grower at some time or another started a project with visions of financial grandeur, but it later penciled out otherwise. If we didn't take risks, the story of our history would be all filler, with no flavor. Taking risk is the rush, excitement and adventure of being in business. Sometimes all you need is a knee surgery, six months of rehab, thousands of dollars in medical bills and once-used ski gear to make you realize that maybe fishing is your sport. But what's the fun in that?

We wish everyone an adventurous and prosperous 2015-16 growing season.
Thank you for your continual support of our family business.

John L. Lewis

Trident Maple

Acer buergeranum

Trident Maple zone 5

Native to Japan, Trident Maple is widely known for its use in bonsai due to the leaves keeping good reductive form. Mature specimens add very attractive shape and color to landscapes with its orange tinged exfoliating scaled bark and vibrant yellow, orange and red fall color. Height 30'-35'

Per Bundle

25

ABP

EACH

\$1.50

Acer campestre

Hedge Maple zone 5

Native to Europe and commonly used to form a hedge due to its dense branching habit, though in the states it's generally used as a small landscape tree that's adaptable to high ph or acid soils with consistent gold fall color. Height 30'

50

Marley's Pink Japanese Snowbell

Styrax japonica 'JLWeeping'
US PP 23,755 P3

JLPN Inc. is proud to introduce you to Marley's Pink; a new Pink Weeping *Styrax japonica* introduction, represented by Upshoots LLC.

Marley's Pink exhibits leaves much larger in length and width, darker green, and glossier than most cultivars of Snowbell. The true magnificence of this tree is in the profuse blooming character. Blooms are a lustrous pink shade, with a light sweet fragrance of cotton candy. The fall color is bright lemon-yellow.

This new introduction displays good pest and disease resistance, and is a spectacle and centerpiece in patio containers, small gardens or landscape.

Mature Height 8-10'; Width 4-5'; Zone 5

For pictures or more information on Marley's Pink contact:

Nuttall Oak zone 6

Nuttall Oak is one of the more distinctive oaks in the landscape with strong showy red fall color and widely adaptable to urban growth sites. ABP* Height 60'x35'

Per Bundle

25

ABP

EACH

\$1.45

Quercus palustris

Pin Oak zone 4-8

Pin Oak has excellent bronze orange fall color and grows best in high acid soils but does not like high pH. These seedlings have root fiber production unmatched by other growing containers. Height 55'-75'

25

ABP

EACH

\$1.45

Quercus phellos

Willow Oak zone 5

Willow Oak has dark green glossy leaves and orange-red fall color. Although known to be difficult to transplant, being grown in our custom soil blend in the Anderson Band Pot greatly increases transplant success. Height 40'x30'

25

ABP

EACH

\$1.50

Quercus prinus

Chestnut Oak zone 4

Common to the Appalachian mountain range, chestnut oak acorns are said to be relished by wildlife. The bark at maturity is similar to the scale on an alligator's back. Yellow-orange fall color. Height 80'

25

ABP

EACH

\$1.50

Quercus robur

English Oak zone 4

English Oak is adaptable to a wide range of soil types and variable pH. It is relatively pest resistant, other than mildew issues. This is a fast growing and durable oak that works well as an understock for budding and grafting. Broadly columnar. Height 50'-60'

25

ABP

EACH

\$1.45

Quercus robur 'fastigiata'

Columnar English Oak zone 4

Distinctly upright and columnar and specifically grown to have a very fibrous root system. Height 50'-60'

25

ABP

EACH

\$1.45

Pin Oak

Red Oak

Black Locust

Mountain Ash

Per Bundle

Quercus rubra

25

Northern Red Oak zone 3

EACH

Red Oak is constantly one of the best selling oaks around the country for its strong growing habit, structure and fall color. Rounded. Height 50'-60'

ABP

\$1.45

Quercus shumardii

25

Shumard Oak zone 5-9

EACH

Shumard transplants well and is tolerant to drought conditions but thrives in moist soil. Russet red fall color specifically grown to have a very fibrous root system. Rounded. Height 50'-60'

ABP

\$1.45

Quercus velluntina

25

Black Oak zone 3-9

EACH

Black Oak, or Kellog Oak has leaves from 4-7" in length with bristle points on the end. The fall color is dark orange to red. Height up to 80'

ABP

\$1.45

Robinia pseudoacacia

50

Black Locust zone 5

EACH

Used for budding Locust cultivars.

Sales and Credit Terms and Conditions

~ Downloadable applications available online at www.jlpnliners.com ~

JLPN Inc.

Policies and Terms Control.

Applicant/Buyer acknowledges that any and all sales on and extensions of credit by JLPN Inc., are expressly conditioned upon buyers unconditional acceptance of JLPN Inc. Sales and Credit Terms and Conditions stated herein and as hereafter amended. JLPN Inc. Sales and Credit Terms and Conditions supersede any and all terms and conditions appearing on Buyer's documents, including but not limited to purchase orders regardless of the time presented.

Authorization to Obtain Information.

Applicant/Buyer grants to JLPN Inc. the continuing right to obtain credit reports involving the Applicant/Buyer or other financial and credit information and to investigate the Applicant/Buyer's financial status from time to time as JLPN Inc. may see fit. Applicant/Buyer shall sign a written authorization to obtain information in a form acceptable to JLPN Inc. on request.

Change of Ownership/Address.

Applicant/Buyer, shall promptly advise JLPN Inc. in writing of any change of ownership or of the address of Applicants/Buyer's business. All such notifications shall be made to JLPN Inc., in writing, within five (5) working days of the change.

Guarantee.

JLPN Inc. guarantees all stock for grade ordered, named variety and good condition up to delivery to the freight carrier. Condition, growth, and production after delivery to the freight carrier is the responsibility of the Buyer.

Force Majeure.

If performance is made commercially impracticable or impossible because of the occurrence of an event beyond the reasonable control of JLPN Inc., including but not limited to, weather, acts of God, war, labor disputes, etc., then JLPN Inc. shall not be responsible for its inability to fulfill any orders in whole or part.

Ordering Terms.

A Twenty-five percent (25%) deposit is required on all customer orders. Those with approved credit have thirty (30) days from the shipping date to pay the balance in full. **New customers must arrange pre-payment or COD prior to JLPN Inc. shipping the order.**

Payment.

Payments made with credit cards, please note there is a 2.75% surcharge. All balances must be paid in full within thirty (30) days of shipping date. Invoices are sent within seven (7) business days of shipping and include shipping date and shipping cost.

A late charge of 2 percent per month (24% per Annum) on the unpaid balance will be added to all accounts past due. Failure to adhere to these terms may result in a shipping hold on all unshipped orders and/or a termination or reduction in the credit JLPN Inc. will extend. All payments are to be made to:

JLPN Inc.
1118 Lancaster Drive NE #409
Salem, Oregon 97301

Cancellation.

All cancellations must be made to JLPN Inc. by the 1st of Dec. of each season. Any cancellation past that date may result in a cancellation of the balance of the Buyer's order and/or forfeiture of the Buyer's deposit. Phone will be the only acceptable method.

Packing/Shipment.

Cost of packing and shipping is in addition to the price of stock and will be added to the Buyer's balance upon shipping.

Confirmation.

All orders will be confirmed in writing by JLPN Inc. before shipping. The written confirmation shall include payment terms and estimated shipping date.

Delivery.

JLPN Inc. makes no guarantee with respect to delivery. JLPN Inc. will ship FOB JLPN Inc. loading dock via UPS unless another carrier is specified by the Buyer before confirmation. Shipping is at risk of the Buyer and JLPN Inc.'s responsibility for all stock ceases upon delivery to the carrier. If stock is damaged in transit, Buyer must make all claims to the freight carrier, not to JLPN Inc.

Claims.

All claims must be reported by Buyer to JLPN Inc. within ten (10) days of the receipt of the shipment. Adjustments, if any, will only be for claims concerning the quality of grade, named variety, or damage from JLPN Inc. harvesting. **All plants become Buyers property upon delivery to the freight carrier. All unsatisfactory stock must be returned to and received by JLPN Inc. within fourteen (14) days of delivery to Buyer.**

Re-shipment must be authorized in writing by JLPN Inc. and plants must be returned in good condition. Freight on return of unsatisfactory stock will be paid by JLPN Inc., once approved by JLPN Inc. for return.

Attorney Fees.

In the event Buyer's account with JLPN Inc. is placed in the hands of an attorney for collection, Buyer promises and agrees to pay JLPN Inc. reasonable attorney's fees and costs, even though no arbitration, suit or action is filed thereon. Further, if any arbitration, suit, or action is filed to collect any sums allegedly due by Buyer to JLPN Inc. Buyer promises and agrees to pay JLPN Inc. reasonable attorney fees and costs as fixed by the arbitrator, Court or Courts in which the arbitration, suit or action, including any appeal therein, is tried, heard or decided.

Oregon Law.

All transactions between Buyer and JLPN Inc. shall be interpreted under the laws of the state of Oregon. Further, Buyer stipulates to jurisdiction and venue in Marion County, Oregon for any claims arising out of any transaction between Buyer and JLPN Inc.

Applicant, by submitting this application, represents and warrants to JLPN Inc. that all information contained in its credit application is true and correct and authorizes JLPN Inc. to investigate any and all references listed herein and to obtain a consumer credit report upon Applicant for use in evaluating this application.

The terms Buyer and/or Applicant mean the person/entity submitting this application.

Endless Adventure

Watching kids grow up and evolve into young adults is a true reward, there's nothing that compares. We hope that the kids want to follow the family business, but in reality, all we care about—like most parents—is that they find happiness in life. From catching fish, hiking a trail, to the amazement of finally finding that first four-leaf clover. Going outside and seeing what the world has to offer is the endless adventure, which life holds.

– John Lewis

dba: Lew's Lakeshore Nursery
